DIWO TPM – Transnational Project Meeting

Projeto Scholé

From 20th to 21st of September 2021

Co-funded by the
Erasmus+ Programme
of the European Union

DIWO's TPM – Transnational Project Meetings

The project will give each partner the opportunity to act once as host country, being able to show first-hand how education is in their country, how they work in their schools, how they integrate arts and culture in the curriculum and open the doors of their classrooms to the rest of the DIWO team.

First Transnational Meeting. Portugal.

During this meeting, the group will be able to clarify doubts, ask questions, share how the DIWO process is going on, the positive aspects, the impact on the motivation of the students, the impact on the teachers, etc. At the same time, SCHOLÉ teachers will be able to show us first-hand how they work on a daily basis, with a methodological approach based on experimentation, project-based learning, design thinking... offering us a presentation on the techniques and strategies they use in their classrooms, inviting us to enter their classrooms to see and experience how students work independently, encouraging their creativity and responsibility in the learning process.

We think that their experience in this innovative methodology can be an excellent way to increase the energy of the teachers participating in the DIWO Project, as in the second phase of the project, students will have to make the most important decisions and prepare for their big day at the final premiere.

In addition, during this meeting we will address the tasks prior to the implementation of the final product with an emphasis on how to compile the videos and photographs of the process to make it a quality product.
